## Notes to Unaudited Financial Statements

For the three months ended July 31, 2010 and 2009

(expressed in Canadian dollars)

---

### 1. Operations, going concern and measurement uncertainty

#### Operations

Kirkland Lake Gold Inc. (the Company) owns gold mining and milling operations in Kirkland Lake, Canada.

#### Going concern

While the accompanying financial statements have been prepared on a going concern basis, which contemplates the realization of assets and liquidation of liabilities during the normal course of operations into the foreseeable future, certain historical adverse conditions and events could cast significant doubt on the validity of this assumption and, hence, the appropriateness of the use of accounting principles applicable to a going concern.

During the years ended April 30, 2010 and 2009, the Company incurred losses of \$10.5 million and \$3.3 million, respectively. Cash flow required for operating activities, including exploration costs charged to operations of \$7.5 million, aggregated \$3.0 million for the two years in total. The funds required to continue operations and exploration activities during this period have been financed primarily from the issue of equity.

At July 31, 2010, the Company has working capital of \$46.8 million. Management projects that these funds, together with cash flow from operations, will be sufficient to meet the Company's obligations and capital expenditure plans for the foreseeable future. Nevertheless, differences are likely to occur between actual results and those projected by management, and those differences may be material. It is possible that the operations will not generate sufficient cash flow for the Company to continue in the normal course without funding being provided from outside sources.

Management has been successful in obtaining sufficient funding for the Company's operating and capital exploration requirements in the past and will pursue additional funding in the future, if necessary. There is, however, no assurance that such funding will be available to the Company, or that it will be available on terms which are acceptable to management. If (i) operations do not generate sufficient cash flow and (ii) sufficient funding for the Company's operating and capital expenditure requirements on terms acceptable to management is not available, the Company may not be able to continue as a going concern.

These financial statements do not reflect the adjustments to the carrying values of assets and liabilities and the reported expenses and balance sheet classifications that would be necessary were the going concern assumption inappropriate, and these adjustments could be material.

### 2. Significant accounting policies

#### Basis of presentation

These unaudited interim financial statements are prepared in accordance with Canadian generally accepted accounting principles ("GAAP"). They do not include all of the information and disclosures required by Canadian GAAP for annual financial statements. In the opinion of management, all adjustments considered necessary for fair presentation have been included in these financial statements. The interim financial statements should be read in conjunction with the Company's audited financial statements including the notes thereto for the year ended April 30, 2010.

# KIRKLAND LAKE GOLD INC.

## Notes to Unaudited Financial Statements

For the three months ended July 31, 2010 and 2009

(expressed in Canadian dollars)

---

### 2. Significant accounting policies (*continued*)

#### Future changes in significant accounting policies

The following Canadian accounting pronouncements were issued and not yet adopted by the Company:

- CICA Handbook Section 1582, Business Combinations. The new standard prescribes how an organization recognizes, measures and discloses a business combination. This standard is not expected to have a significant impact on the Company's financial position or results. This is effective for business combinations for which the acquisition date is on or after the beginning of the first annual reporting period beginning on or after January 1, 2011.
- CICA Handbook Section 1601, Consolidated Financial Statements. The new section prescribes consolidation accounting standards. This standard is not expected to have a significant impact on the Company's financial position or results. This is effective for fiscal years beginning on or after January 2011.
- CICA Handbook Section 1602, Non-Controlling Interests. The new section prescribes standards for the accounting for a non-controlling interest in business combination. This standard is not expected to have a significant impact on the Company's financial position or results. This is effective for fiscal years beginning on or after January 2011.

### 3. Restricted cash

Restricted cash includes:

	<b>JULY 31 2010</b>	<b>APRIL 30 2010</b>

## Notes to Unaudited Financial Statements

For the three months ended July 31, 2010 and 2009

(expressed in Canadian dollars)

---

### 8. Asset retirement obligation

The Company has filed a reclamation and site restoration plan in connection with the Kirkland Lake properties and this plan is currently being discussed with the Ontario Ministry of Northern Development of Mines and Forestry (MNDMF). The Company's best estimate of the total costs of reclamation and site restoration at July 31, 2010 are \$5,524,130 and financial assurance has been provided to the MNDMF by way of a letter of credit in the amount of \$4,452,597 (Note ).

A reconciliation for asset retirement obligations is as follows:

	<b>JULY 31</b>	<b>APRIL 30</b>
	<b>2010</b>	<b>2010</b>
Balance - Beginning of period	\$ 3,223,922	\$ 3,041,434
Accretion	48,359	182,488
Balance - End of period	<b>\$ 3,272,281</b>	<b>\$ 3,223,922</b>

The Company continues to correspond with the MNDMF regarding the Wright Hargreaves property. The Company has retained a consultant to assist in the identification of any potential hazards and related obligations to the Company. This process is currently ongoing, the outcome of which is currently indeterminable at this time.

### 9. Capital stock

	<b>Number of</b>	<b>Amount</b>
	<b>shares</b>	<b></b>
Balance - Beginning of period	67,727,634	\$ 226,933,558
Exercise of options (Note 10)	3,000	35,580
Balance - End of period	<b>67,730,634</b>	<b>\$ 226,969,138</b>

### 10. Options

The Company has adopted a stock option plan which allows the Company to grant options to directors, senior officers and employees of and consultants to the Company and employees of a corporation providing management services to the Company. The aggregate number of shares which may be subject to issuance pursuant to options granted under this plan is 10% of outstanding shares.

The plan provides that the exercise price of an option granted under the plan shall not be less than the market price at the time of granting the option. Options have a maximum term of 10 years and terminate on the 90th day after the optionee ceased to be any of a director, officer, consultant or employee; or the earlier of the 90th day and the third month after the optionee ceased to be an employee or officer if the optionee is subject to the tax laws of the United States of America.

Notwithstanding that options can have a maximum term of 10 years it is presently the policy of the Company to issue options for terms of five years.

The changes in stock options issued during the 3 month period ended July 31, 2010 are as follows:

# KIRKLAND LAKE GOLD INC.

## Notes to Unaudited Financial Statements

For the three months ended July 31, 2010 and 2009

(expressed in Canadian dollars)

### 10. Options (continued)

	Number of shares	Weighted average exercise price
Options outstanding - beginning of period	1,404,500	\$ 7.55
Exercised	(3,000)	7.90
Forfeited	(2,500)	7.90
Options outstanding - end of period	<u>1,399,000</u>	7.55
Options exercisable - end of period	<u>945,250</u>	\$ 7.74

The following table summarizes information about stock options outstanding and exercisable at July 31, 2010:

Exercise price	Options outstanding	Options exercisable	Outstanding options weighted average remaining life (years)	Exercisable options weighted average remaining life (years)
\$ 5.05	50,000	25,000	3.19	3.19
6.99	250,000	125,000	3.06	3.06
6.99	487,500	243,750	3.14	3.14
7.90	256,500	256,500	2.79	2.79
8.65	245,000	245,000	1.50	1.50
9.02	20,000	-	4.29	-
9.11	15,000	-	4.42	-
9.25	75,000	50,000	2.81	2.81
	<u>1,399,000</u>	<u>945,250</u>	2.79	2.79

The fair value of each stock option at the date of grant was estimated using the Black-Scholes option-pricing model.

	JULY 31 2010
Expected life of stock options	<u>1.91 - 2.64 years</u>
Risk-free interest rate	1.51 - 1.97%
Expected stock price volatility	96.8 - 110.1%
Expected dividend yield	0%
Weighted-average fair value of options	\$ 5.23

Option pricing models require the input of highly subjective assumptions including the expected price volatility. Changes in the subjective input assumptions can materially affect the fair value estimate.

## Notes to Unaudited Financial Statements

For the three months ended July 31, 2010 and 2009

(expressed in Canadian dollars)

---

### 12. Financial instruments

The Company's financial instruments consist of cash and cash equivalents, restricted cash, short-term investments, accounts receivable, security deposits, accounts payable and accrued liabilities. At July 31, 2010, the carrying values of these instruments approximate their fair values based on the nature of these instruments.

#### Fair Value Measurements of Financial Assets and Liabilities Recognized in the Balance Sheet

The amendments to Section 3862 (Note 2) introduce a fair value hierarchy that reflects the significance of inputs used in making fair value measurements as follows:

- Level 1 – quoted prices in active markets for identical assets or liabilities;
- Level 2 – inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly (i.e.: as prices) or indirectly (i.e.: derived from prices); and
- Level 3 – inputs for the asset or liability that are not based on observable market data.

The levels in the fair value hierarchy into which the Company's financial assets and liabilities measured and recognized in the balance sheet at fair value are categorized are as follows:

Cash and cash equivalents	Level 1
Short-term investments	
Mutual funds	Level 1
Treasury bills	Level 2
Accounts receivable	Level 2
Security deposits	Level 2
Restricted cash	Level 1
Accounts payable and accrued liabilities	Level 2
Capital lease	Level 2

#### Interest Rate and Credit Risk

The Company has significant cash and short-term investment balances. The Company currently invests excess cash in fixed rate Government of Canada Treasury Bills with maturity dates of approximately 90 days. Generally, these deposits may be redeemed upon demand and are maintained with financial institutions of reputable credit and therefore bear minimal risk.

An allowance for doubtful accounts is established based upon factors surrounding the credit risk of specific accounts, historical trends and other information when necessary. As at July 31, 2010, there were no receivables past due.

There are no fixed, floating rate or interest free financial liabilities by way of borrowing. Deposits held with banks may exceed the amount of insurance provided on such deposits.

#### Liquidity Risk

The Company's approach to managing liquidity risk is to ensure that it will have sufficient liquidity to meet liabilities when due. As at July 31, 2010, the Company had a cash and cash equivalents and short term investments balance of \$48,607,767 to settle financial liabilities of \$16,130,110. All of the Company's financial liabilities are current liabilities which will mature within one year of the balance sheet date.

## Notes to Unaudited Financial Statements

For the three months ended July 31, 2010 and 2009

(expressed in Canadian dollars)

---

### 12. Financial instruments (*continued*)

#### Currency Risk

Sales of gold dore bars and the majority of the Company's expenses are incurred in Canadian Dollars therefore the Company is substantially protected against movements in foreign exchange.

#### Sensitivity Analysis

The carrying amount of financial instruments approximates their fair market value. The movement on cash and cash equivalents and short-term investments interest rates by a plus or minus 1% change would have no material impact on the value of those items.

### 13. Related party transactions

The Company paid office facilities and administration services in the amount of \$10,500 (2009 - \$10,500) to a company related by a director in common.

These transactions were in the normal course of operations and were measured at the exchange value, which represented the amount of consideration established and agreed to by the related parties.

### 14. Commitments

As at July 31, 2010, capital commitments included:

Capital Commitments (All commitments in 000s of Canadian Dollars)	\$000
Property, Plant and Equipment	6,413
Underground Development	216
Total	6,629

Capital commitments include the expansion project and ongoing project commitments. Major commitments include: i) the second dry expansion project, ii) the hoisting upgrade and compressor projects and iii) mobile underground equipment required for maintaining and supporting higher production levels.

The Company has a capital lease bearing interest at 8% per annum, repayable in monthly payments of \$8,487. The lease matures in 4 months.

As at July 31, 2010, the Company had an outstanding commodity contract with Johnson Matthey Plc. to fix the price of 3,037 ounces of gold at an average price of \$1,307 per ounce to be delivered under this contract. As part of the commodity contract Johnson Matthey Plc. has a right to make a margin call if the price of gold falls below the price of the commodity contract until the full amount of the commodity contract has been satisfied. At the end of the quarter, \$16,000 was on deposit to cover the margin calls made by Johnson Matthey Plc.

### 14. Commitments *(continued)*

A net smelter royalty is payable to Kinross Gold Corporation on a sliding scale commencing at 2% if the price of gold sold is equal to or greater than US\$300 per ounce and increasing to 4% if the price of gold sold is equal to or greater than US\$500 per ounce. The royalty terminates upon a maximum aggregate payment of \$15 million. During the period ended July 31, 2010, royalties under this agreement amounted to \$781,706 (2009 - \$899,724). Of the \$15 million the Company has paid \$8,278,640.

### 15. Segmented information

The Company has one operating segment consisting of a mining and milling operation located in Kirkland Lake, Canada. During the periods ended July 31, 2010 and 2009 all of the Company's property, plant and equipment, revenues earned and operations were in Canada.

### 16. Supplemental cash flow information

Cash and cash equivalents comprise cash on deposit with Canadian chartered banks, lines of credit and treasury bills.
